    Optimized the code by **30% to 40%** *[Source Code]*
  - **Learning**: Learnt to implement a efficient BackEnd Server.

- **GuessMe**
  *Android Developer **GitHub*** — *Feb 2022 - Mar 2022*
  - **Tech Stack**: Java, XML, and Figma.
  - **Role**: Developed a number guessing game using Binary Search technique.
    Person with minimum number of attempts wins the game.
    No internet is required, just install and play.
  - **Learning**: Learnt to use Android Studio and it's other components.
    Learned implementing Splash Screen and passing data from one screen to other.

CODING PROFILES AND LINKS

Leetcode - Solved over 330+ Questions   **GeeksForGeeks -** Solved over 340+ questions
Coding Ninjas - Solved over 560+ Questions   **GitHub -** https://github.com/adnan-sam

ACHIEVEMENTS

- Under top **10 Geeks** in College's Geeks For Geeks Portal out of 1100 registered Geeks - Feb '23
- **5 Star** in HackerRank
- **Expert** at Coding Ninjas - Oct '22
- Completed **HacktoberFest** 2022 - Oct'22
- Attended **Google DevFest** 2022 - Nov'22
- Appreciated for building **Automatic Dustbin** using Arduino - Mar '22
